

**OFFICE MEMORANDUM**

**Subject: Uploading/Sharing of Contract Award details on electronic Portals**

In order to have transparency in public procurement, as per extant instructions Contract Award details are to be uploaded on electronic procurement portals such as Government e-Marketplace (GeM) etc. immediately after award of the contract.

2. During the periodic GeM review meeting, following has been brought to the notice of this department:

*“ Open, transparent declaration, of price, source and delivery schedule of Central Public Sector Enterprises (CPSEs) suppliers as per extant instructions adversely impacts ability of CPSEs to compete in highly competitive market. CPSEs are denied a level playing field. It was suggested that a declaration from the procuring entities may be taken, at the time of tender formulation, on whether the subject of procurement is for commercial re-sale. Procurement details of such declared goods and services may be shared on the Portal after six months of finalization of the procurement. Such a system shall protect financial data of the CPSEs for a reasonable time while also complying with requirement of transparency.”*

3. In this context, it has been decided that:

- (i) At the time of tender formulation, commercial organisations like CPSEs will disclose whether the subject of procurement is for commercial re-sale.
- (ii) Contract Award details of such cases may be shared on electronic Procurement Portals such as GeM, Central Public Procurement Portal (CPPP) etc. after six (06) months of finalization of procurement.
- (iii) Electronic Procurement Portals may make necessary changes to implement the same.
